

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

REFLEXIVE.

I am speaking to myself, Dhanggattharanetch

RECIPROCAL.

We, dual, speak to each other, Dhanggaiadyalliang
We, plural, speak to each other, Dhanggaiagundhiang

Stated Meeting October 18, 1907.

President SMITH in the Chair.

PROF. HENRY H. DONALDSON read a paper on "The Growth of the Albino Rat as Compared with the Growth of Man," which was discussed by Professors Houston and Conklin.

Stated Meeting November 1, 1907.

President SMITH in the Chair.

PROF. HOUSTON presented a verbal communication deprecating the use of the word "Aerogram" and discussed the use of other terms applied in this connection. He favored the terms "Hertzian or Marconic Telegraphy" and "Marconigram."

Stated Meeting November 15, 1907.

President SMITH in the Chair.

The following papers were read:

"Pastorius," by PROFESSOR M. D. LEARNED, which was discussed by Mr. H. La Barre Jayne.

"The New Theory of Earthquakes and Mountain Formation, as Illustrated by Processes Now at Work in the Depths of the Sea," by PROF. T. J. J. SEE. (See page 369.)
